

Sledmere Primary School Pupil Premium Strategy 2019-2020

| Financial Year | Pupil Premium Allocation |
|----------------|--------------------------|
| 2019 to 2020 | £225730 |

The Pupil Premium Grant is additional funding for publicly funded schools in England. Ofsted and the government expect this money to be used to raise the attainment of disadvantaged pupils of all abilities and to close the gaps between them and their peers. Although the funding is used to meet the needs of these individuals, other pupils may benefit from it as a matter of course, eg from increased staffing.

Barriers to achievement at Sledmere

- Age-related attainment is below average on-entry to school.
- Some children on entry to school need further development in communication, vocabulary and receptive language.
- Children need to develop resilience and independence to reach their full potential and be aspirational for their future.
- There are a high number of pupils that require additional support academically, socially and emotionally.
- Low attendance for a group of children across the school is hindering their academic achievement.
- There are a number of families who require additional support from outside agencies.
- There are a significant number of children from deprived postcodes with English as an additional language.
- Children need opportunities for enrichment beyond the curriculum.
